THANK YOU
KANSAS GOV. LAURA KELLY
AND REPUBLICAN AND
DEMOCRATIC LAWMAKERS
YOU KEPT US
ON TRACK

Recovery in Kansas has been a long time coming. In the 2019 legislative session, we saw heartening progress toward rebuilding the state we love. Working together, we:

- STOPPED risky tax policy that would have benefited multinational corporations at the expense of Kansas families.
- INVESTED in the future of our state’s children through increases to education and the Children’s Initiatives Fund.
- SHOWED that majorities in both chambers are ready to expand Medicaid to cover 150,000 fellow Kansans.

At KANSAS ACTION FOR CHILDREN, we have spent 40 years working to make this state the best place to raise — and be — a child. And we can’t do that without responsible fiscal policy, commitments to programs that strengthen the littlest Kansans, and affordable health care.

BUT WE NEED MORE.

WE NEED YOU
TO BE A CHAMPION FOR KIDS

As a new fiscal year dawns, businesses and civic leaders across Kansas are waking up to the fact that the best investment we can make is in our state’s children.

It’s the perfect time to forge ahead.

KAC has been working to expand access to child care, strengthen family supports and anti-poverty programs, and make sure that EVERY KANSAS CHILD THRIVES.

You can play a critical role in building a powerful coalition of citizen advocates, activists, and lawmakers. Visit kac.org/signup to learn how you can help.
